John Flood

John is an international educator, spiritual teacher and Attunement practitioner. He has lived and worked in a diversity of cultures over many years. He shares his love for Attunement with other creative artists through the medium of photography.

In **Attunement** with our universal identity, the Presence of Love radiates a powerful blessing into the field of human experience, extending a healing influence to human consciousness and to all of creation. The Radiation of Love interpenetrates and draws all resonant substance to itself, restoring the atmosphere of Home, filled with love, deep peace and wellbeing.

Attunement transforms and re-aligns body, mind and emotions, re-awakening awareness of our true identity as creator beings designed to fulfil the purposes of Divine Being right where we are.

Attunement extends intercession, forgiveness, and healing, dissolving old patterns by re-establishing wholeness throughout the system.
